Mr. J. S. C. AREL AT PORD'S THEATRS.—"Dot" was the attraction has right and in every way it proved attractive to the large addence assembled. The piece was rell placed upon the every man and well acted throughout. If, Clarke, if the Stowbay, was satellest; nothing could have seen more laughable than to see Thy in change of the baby. The new seenery painted for it was well second, and the rausic appropriate. Mr. Clarke represents the part of Thy this evening; and in order to make a stronger bill, he has combined with it "Our American Cousin," giving to night two great plays—a perfect double attraction.

Mr. Clarke, an "Asa Tenohard," is acknowledged to be the best representative on the stage. The character is peculiarly adapted to his style of acting; consequently, he has achieved a great success in it, to althe large theatres of our busy world. Mass Annie Grabam made her bow to our play goers last night, for the first time this senson. She sustained the part of "Dot" with great colal.

Groven's Theatre.—An immence crowd, com-

first time this senson. She sustained the part of "Det" with great cotal.

Geover's Theather.—An immen's crowd, comprising the beauty and fashion of our national metropolis, were in attendance last right at Grover's splendid theather, to witness the first representation of the magnificent drams, Dot, or the Cricket on the Hearth. The celebrated considing, John E. Owens, was perfectly at home in the character of Caleb Plummer, and the distinguished and beautiful young actress, Miss Kate Denin, as Det, won the admiration of the entire audience. Miss land Freeman in the touching character of Bertha the blind girl, drew tears to many easy; and Miss Sophie Gimber as Tilly Slowboy, performed har difficult part to perfection. Ben Regers as honest John Perrybingle, gave most intense satisfaction to the audience; in itsel, sway character was most admirably sustained. It will be presented for the second time to night.

Castranguar, Hall, —This elegant temple of

tion to the audience; in tect, awary character was most admirably sustained. It will be presented for the second time to night.

Carramour Hall.—This elegant temple of music and tue was filled to its utmost capacity last evening, by persons anxious to hear the great Houtish nightingsie, Miss Agoes Southerland, who brings with her such a brilliant reputation from the European countries. When she made her appearance, there was such an outburst of applaume as we have never before witnessed. Her singing was intended to with marked attention, and canh one of her pieces was enthusiastically oncored. Miss Southerland is certainly all that she has been represented to be by European journals, and we are maisfed that she will creat a great sensation among the musical community of this city. Wile Mariotts was as happy a usual in the splendid Spanish dances. Bob Hart, and Law Simmons produced great mertment by their amusing acts. In fact, the entire company performed their aversal parts in a most creditable manner. The great pantonime, "the French Schoolmaster," in which Bob Butler faguras conspicuously, save great satisfaction, and Bob Hart's comin afterpiece, the "Portrait Painter," produced many a hearty laugh. Tonight the entire company appear in another choice programme.

iwo Boards while the City Hall is occupied as a hospital, was passed.

The Board then adjourned.

Common Council.—A communication was received from the Mayor informing the Board of his approval of certain acts.

Also a communication enclosing the bill providing that persons taking out licenses shall first take an oath of allogiance; which was returned with a veto.

[The bill had been amended in the Board of Alderman, by substituting for the oath at first prescribed, the oath intended for employees of the corporation, from which they had neglected to strike out the words "and that I will well and faithfully execute the duties of the office." Ear.]

Mr. Utermshle introduced a bill providing for the appointment of four Commissioners of improvements instead of two as at present. Referred to the Committee on Improvements. Mr. Hedrick presented the petition of John M. Locke, asking the remission of a fine. Referred to the Committee on Charma.

The bill from the Board of Aldermen, authorizing the laying of a plank truck under the gutter on Pirst street east, between Cand D. sta, and appropriating 4500 therefor, was taken up. Mr. Utermshle asked if the Fitth ward had funds sufficient to the corporation the Fourth ward had 230,000 to its credit, and stated that by the books of the corporation the Fourth ward had 230,000 to its credit, and yet when they wanted money they were told that they had none or tint it had been expended in other wards. He offered an amendment, providing that the work should be done when the Fitth ward funds to its credit.

Mr. Hedrick suid, that if such an amendment was adopted, the bill might as well be abandoned. The improvement was actually necessary—the recent rains baving washed the banks in that locality so as to endanger the house in that locality so as to endanger the

houses in that locality and the lives of those living there.

Mr. Wilson stated that this was one of the swils growing out of the ward system, and explained why it was that the funds of some wards were as far beined those of other wards. Mr. Utermehie's amendment was then lost—years 6, nays 7, and the bill was passed.

The special order—the bill organizing a free department—was taken up and ordered to be printed, with the smendments, and made the special order for next Monday.

A Soldier's Equipments Found. A Soldier's Equipments Found.

Officer Robert Johnson, of the Third ward, found, near the market, on Sunday, what appeared to be the entire equipments of a soldier, who may be sick or wounded, and whose loss may be severely felt. It consisted of an enfeid risk, haverack, canteen, cartridge-box, two blankets, and knapsack. In the latter, his personal effect, such as needles, portfolio, the likeness of a lady, &c., were found, with letters and papers, which go to show that the loser's name is tharles T. Hyde, company B, Twenty-third regiment New York State volunters. The property is at the office of the Metropolitan Police, No. 516 Eleventh street.

How to Make Bandages. Bandages should be made from cotton which has been washed; any old cotton which will bear a hard poil will answer the purpose. They should be from three to sax inches in width, and from four to ten yards in length. They should be nigroup to ten yards in length.

They should be pieced by lapping one end of the other and sewing the pieces securely; edges need not be turned in. No selvages hard seams should be allowed on them. Our Citizens Captured. Our Citizens Captured.

The uneven or short threads should be kept by themselves; they are used as second quality. Soraped lint is accepted, but used as third quality.
